About me

Sociable, I can find logical solutions in difficult situations. I always try to move forward and learn new things that will benefit my work in software industry.

Experience

Self Employed

Since 2019

I have worked on several types of projects. Some of them are just little parts of web page, (contact form, admin panel, footer), but other - full web pages.

You can see my some projects on my GitHub profile.

Education

Business Bachelor

From 2013 to 2017

self-taught itvdn, freecodcamp, youtube, w3school, udemy, academind, google.

Since 2019

React Course Tbilisi School of communication Tbilisi, Georgia

Since March 2022

I learned JSX, how to use React hooks, API calls with Axios and fetch, map, filter, routes, modules for CSS, and much more in React
